Presented by Barry Denluck:

Barry has been a beekeeper in the Victoria area for 20 years and avid gardener for more than 25 years. He is an accredited Province of BC Bee Master and BCHPA certified instructor.

Course Description:

This course is an introduction to beekeeping. There are no prerequisites. The course offers participants both theory and practical field experience. With Covid-19 consideration my Beginner's course has been restructured to a **webinar format** so you can safely participate from home.

Each of the 6 webinar sessions are 2.5 hours in duration consisting of 3 modules with breaks for questions. Each of the 40 minute modules will be recorded and made available through my private educational YouTube channel for review after the course.

Field days will be scheduled at end of the webinar lectures during May or June.

Curriculum:

- History of beekeeping
- The honeybee society
- Honey bee physiology
- Honey bee health and wellness
- The hive
- Getting started
- Honeybee products
- Spring and summer management
- Integrated pest management
- Fall and Winter management
- Harvesting and marketing
- Putting it all together
- Field Day: beekeeping equipment, handling live bees, setting up an apiary
 - Optional subject to Covid-19 restrictions

Note: A bee veil for over the head protection during the field sessions is required. Course material is included. **I will assist in starting your new apiary by sourcing beekeeping and beekeeper equipment and guaranteeing the availability of at least 1 NUC (starter hive) of locally bred bees from my private stock, typically available late May.** Price to be set during March 2022.

One year of support following the course by email or texting is included.
